CUPRIT TABLET	
Introduction :	 Cuprit Tablet
Cuprite Tablet is Pink coloured block. It is used for removal of harmful gases in copper.	
Application :	
<ul style="list-style-type: none">• It is mainly used in foundries melting copper in crucibles or furnaces.• It is used in bulk quantity in large copper melting units such as copper wire manufacturing plants, copper rod manufacturing units. Etc.	
Advantages :	
<ul style="list-style-type: none">• It removes unwanted gases.• It stays at the bottom because of it's weight and hence can remove harmful gases and chemicals efficiently.	
How to Use :	
<ul style="list-style-type: none">• When the melt is ready, plunge Cuprit Tablet at the bottom of the melt.• Hold the plunger at the bottom for few minutes, it will start melting and unwanted gas will be removed.• The degassing will cease after few minutes then again add Cupro Cover – 3 and rabble the surface to obtain pure metal.	
Precautions :	
Use Hand gloves while using and handling fluxes. Hands should be washed after use.	
Packing :	
50 Kg. HDPE BAG.
